

Remarks

Figure 2A has been amended to add the brackets to either side of the Figure. A letter to the chief draftsman is enclosed with an updated sheet. The
5 remaining sheet is also submitted to eliminate potential mistakes in replacement.

The specification has been amended to correct a typographical error that referred to Figure 2B as a flowchart instead of a schematic diagram. Applicant's
10 attorney greatly appreciates Examiner's attention to detail in catching this error.

Claim 1 is definite as written. "At least one selected from A and B" means "A or B or both", but does not use the term "or" which has been occasionally found to be
15 indefinite. Thus, the claim 1 term "at least one selected from the second component and the third component" means the second component, or the third component, or both the second component and the third component." In addition to this accepted meaning, the fact that this statement is in
20 the file history of the application should ensure that the statement is not indefinite.

Claim 11 has been amended to correct a typographical error, changing the word "portion" to "component", which has proper antecedent basis.

Claims 12-17 have been canceled to obtain rapid allowance of the remaining claims. Applicant reserves the right to reintroduce claims 12-17 in another application.

Claims 1-11 are now in condition for allowance. Favorable action is solicited.

Respectfully submitted,

October 17, 2003
